Sub: Usage of WAN for adjustment of E-MRO – reg.

An user friendly package has been developed by OA Section, for adjustment of E-MRO available in WAN I.P Address 10.48.7.8/tulipaudit. User ID and password will be generated automatically(default User ID – section code & password – 1234) and subsequently password can be changed as per user convenience. Any difficulties experienced in the above package may be informed to this section/OA Section. At the end of the process, draft Punching Medium can be viewed, correctness of the same may be verified and needs to be uploaded in NCS as being done in cases of regular MRO adjustments.

The contents of this letter may be noted and action may kindly be initiated from the month of JAN 2020 onwards.
