Sub: **Advisory - Receipt of spurious mails regarding**

It has been observed that many users are receiving mails from email ids have domain name of gov.in, nic.in etc which are advising users to click on links provided in the email body for verification. The address of the sender has been shown as the IT Cell of MoD in some mails. One such mail is from sender name 'Ajay Kumar'.

2 In this context, it is informed that such type of emails are spurious in nature and clicking on the link may install ransomware/malware in the computer of the users which may corrupt the data.

3 **Therefore, users are strongly advised not to click the link in such type of emails which appear spurious in nature. Such emails may be deleted. Users are also advised to remain watchful if they receive emails from unknown senders even if the sender is from gov.in/nic.in domain. Users may also ensure that the antivirus installed in their computers remain upto date.**

Jt. CGDA(IT&S) has seen.
