Sub: Cyber Security Threat – Spear phishing regarding.

The cyber cell of Ministry of Defence has informed that Pakistan based threat actors are targeting defence establishments and Govt Officials through emails via spear phishing with attachments.

Phishing is an email attack attempting to trick the user into opening an attachment that contains a virus, clicking a web link that contains a virus, or visiting a website which creatively asks for personal information. In this regards, all the employees of this organisation are advised to be on alert and not click on any strange or unknown links while accessing their emails.
